Some Information as to What Became of It. [Chicago Times.]

called as witnesses in the Chalmers-Manning contested election case, and make their statements under oath. make their statements under oath.

10:10 p.m.
10:20 p.m.
The system of book-keeping was not particularly elaborate. Stubs were the only records both of receipts and study records beth of receipts and disbursements. Such records as there were, were destroyed shortly after congress met, probably with the vestigation, should such a thing be contemplated. Chalmers, according to Hubbell, the chairman, was given \$250 of the corruption fund. Henderson, the secretary, states, however, TRANSCONTINENTAL R. R.

*** of electioneering will have no difficulty in guessing. But it is irrational to expect a detailed statement of funds raised as these were. No legal responsibility rested in the committee. Subscribers knew, if they were at all discerning, that the purpose of the mon-cy was, no matter what the claim, a purpose which would be disclosed to be corrupt were accurate accounts kept. Various plans have been dekept. Various plans have been devised for preventing this kind of scandal, but the efficient, probably the only efficient, plan is in the hands of the men who make the fund by contributing to it, with or without compulsion; it is, to withold their offerings. At any rate, it is the height of absurdity, after having subscribed to such a fund, to inquire what became of it.

Financial Security. [Cincinnati News.]

The Republicans are felicitating themselves that the Democrats will have a hard time of it in the next congress. They think they have got the tariff issue in such shape that it will greatly plague a party which proposes to deal with it. The fact that a large number of Democrats in the house are new members, who were elected at a time when the tariff was sharply dis-cussed and the policy of reductions the means by which Democracy won the house, is expected to contrib-ute greatly to the confusion of Democ-racy. They think they have put the tariff in such shape that, having obeyed the injunction of the elections so far as to do something even if they did not do what was commanded, they have left nothing for the Democrats but submission or a radical policy framed by new men whose ideas are necessarily crude, and whose understanding of the issue in its details must

That there is some good ground for this hope on their part, from their standpoint is true. But democracy is a practical party, and in the nine months to clapse between now and the assembling of congress, events, discussion, the practical workings of the tariff just passed will have thrown much light upon the subject. Noth-ing short of omniscience could tell new wherein precisely it will require alteration and amendment. It will be tried by its workings, and according to a general principle, which democ-racy will steadily hold and cautiously apply—that the tariff must be for revenue, whatever incidental protection it may afford in actual practice, be-cause of the large revenue to be raised. With Carlisle as speaker and Mor-rison as chairman of the ways and

means committee, democracy will have all newness and crudeness confined within conservative channels, and it will not matter to the slightest and it will not matter to the slightest degree how much of radical ideas and policy, how much of crude thought or what impracticability is developed in debate. A party is only responsible for results, for what is formulated, and deliberately proposed. That Carlisle will be elected recent events appear to assure. Where a contest is merely personal within a party, it is e istomary for the successful candimerely personal within a party, it is customary for the successful candi-date for speaker to appoint his de-feated rival; but Mr. Randall has de-parted from this usage, and if he had not, this is a case of substantial and radical differences of opinion where Mr. Carlisle would be obliged to appoint either Mr. Morrison or some other able and cautious leader holding the true democratic view. Under such guidance, with the light of nine months experience under the new tariff, we have no fears as to what will be the effect upon the democracy of this issue. Republicans think now they have gone far enough to save themselves and embarass democrats, not far enough to imperil the protectice policy, but far enough to prevent further action unless it be radical action. Time will perhaps teach them

We think we can cure a bad case of Backache quicker with one of Car-ter's Smart Weed and Belladonna mished. Owner leaving the city
son for selling. Will be sold for application, and after the Backache is cured you can still wear the plaster without discomfort for two or three cured you can still wear the plaster without discomfort for two or three weeks or longer.
